Evacuation Procedures and Locations for On-Campus Residents when in Quarantine/Isolation

This document provides step-by-step evacuation procedures and behavioral guidelines for Coral Gables campus residents who are in quarantine or isolation during a pandemic or sustained public health emergency. If the residential building they are being quarantined or isolated in is evacuated for any reason, residents should use the following instructions as a supplement to the standard evacuation guidelines.

Assembly location points for students in on-campus isolation/quarantine are shown on the included campus map. HRL professional staff and UM Police should be aware of the separate locations so they may respond, as appropriate, to assist with evacuation and re-entry, if able.

During an emergency where police, fire, or university officials direct the evacuation of residential buildings, students in isolation/quarantine will:

**Evacuation**
1. Immediately comply with the order to evacuate
2. Evacuate via the nearest exit (avoiding elevators) and respond to the designated quarantine/isolation assembly area for that building (see map attached)
3. While evacuating, the following guidelines should be adhered to:
   - Remember to wear mask at all times
   - Minimize touching surfaces while evacuating
   - Maintain physical distance from others
   - Stay away from larger gatherings and others (at least 6ft distance), even if you know they are also in quarantine or isolation
4. Once at the designated assembly area, continue to keep physical distance from others and wear mask
5. Wait for further instructions or the all clear message

**Re-Entry**
1. Once the building has been cleared for re-entry, allow all others to re-enter before heading back into the building
2. While re-entering, the following guidelines should be adhered to:
   - Continue to wear a mask at all times
   - Minimize contact with surfaces
   - Use stairs when possible. If using an elevator, avoid using it with others
   - Maintain physical distance from others
3. Report immediately back to your designated room
4. Once back in room, wash hands thoroughly with soap and water for at least 20 seconds
Evacuation Assembly Points List:

Location 1 – Lot 435 – Hecht and Stanford Residential Colleges

Location 2 – Green area North of Lot 444 – Eaton Residential College

Location 3 – Green area Southeast of Lot 444 – Lakeside Village

Location 4 – Lot 304 – Mahoney Residential College

Location 5 – Volleyball Court East of Lot 304C – Pearson Residential College

Location 6 – Lot 721 – University Village Buildings 1 through 7
